

Addison Group leads \$1B+ manufacturer through SAP S/4HANA consolidation

A billion dollar manufacturer was consolidating multiple business units into SAP S/4HANA and needed expert accounting talent to manage their critical month-end close operations.

Challenge

Consolidating multiple business units into SAP S/4HANA is no small task—especially for a \$1B+ international manufacturer with critical month-end close operations to manage. This organization faced a significant challenge of ensuring their North American month-end close stayed on track while their permanent team focused on consolidating business units into SAP S/4HANA.

Without additional support, they risked delayed financial reporting, reconciliation backlogs, and staff burnout.

Solution

With the organization facing a crucial implementation, Addison Group understood why it was essential to find the right talent. We placed multiple Accounting Managers with deep manufacturing experience to take full ownership of the North American close processes. The talent we placed ensured 100% on-time reporting and reconciliations, even during the ERP transition.
